It's no secret that Thailand is a culinary paradise. The country has a delicious food scene with something for everyone. And nowadays, thanks to the modern-day wonders that are food delivery apps, different cuisines from around the world are so easy to get ahold of in Thailand, with easy, breezy, speedy delivery straight to your doorstep (or lobby or reception desk or beachside bungalow or wherever you're staying, if you're just passing through the Land of Smiles!).

Whether you're in the mood for some comforting Italian pasta, fresh and delicious sushi from Japan, spicy burritos from Mexico, or some good ol' fashioned home-cooked Thai food, you can satiate just about any craving with help from the GrabFood app – which happened to be hailed as Thailand's most popular food ordering app in 2022, as surveyed by Kantar, Marketeer, and BrandAge.

And as popular as it's been, GrabFood just got even better — the new app allows for both Thai *and* English menus, even in cities outside of Bangkok where English menus are harder to find. All you have to do is tap "Settings" in your Grab app, hit "Language & input," select "English," then BOOM, you're ready to get the food of your choice in a few taps of a finger. If you're using a web-based browser, just go to the top right-hand corner and click the language box to select English.

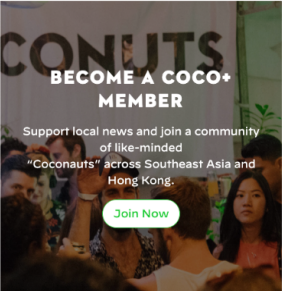

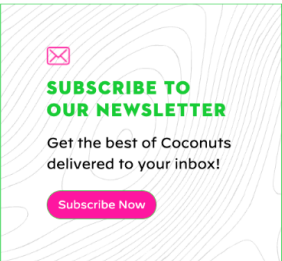

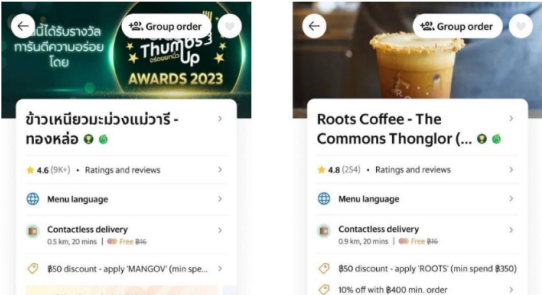

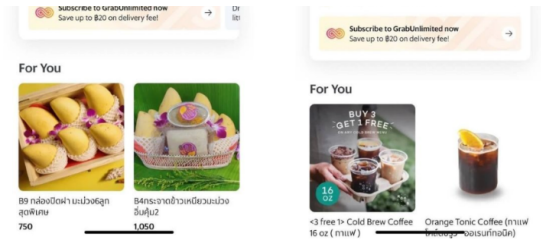

But what to order? Because, there's a sea of different restos on there, you're spoilt for choice (the best kind of "problem" to have in our humble opinions!). So, to help you cut down the hours of scrolling through all the appetizing yet many, many choices, we've rounded up a list of highly-rated restaurant recommendations loved by Thais, expats, and tourists alike, across Bangkok, Phuket, Chiang Mai, Chonburi, and Pattaya. Go ahead, [order first](#), thank us later.

Oh, and hot tip: use the code GRABNOW to get free delivery* – valid for a value of up to THB30 and a minimum spend of THB200 (terms and conditions apply, valid for selected users only).
